TITLE INDEX

Acanthospermum hispidum DC., anatomy of (Mirashi and Bhogaonkar), 154.

Adiantum L., some species of, epidermal studies in (Chandra and Hashim), 80.

Algae, South Indian, contributions to our knowledge, VI (Iyengar and Ramanathan), 227; VII (Iyengar), 236.

Allium cepa, mitotic cells of, cytological effects of argemone oil on the (Subramanyam and others), 216.

Amussium pleuronectes and *Meretrix meretrix*, adductor muscle of, amino acid composition and carbohydrate units in the (Kalyani), 103.

Anthocyanin, non-disappearance of, in differentiating guard cells (Kumar), 257.

Arthromeris wallichiana (SPR.) Ching, on the morphology and anatomy of (Rao and Mrs. Srivastava), 53.

Black flies (Diptera: Simuliidae) at Darjeeling, West Bengal, six species of, studies on the nocturnal periodicity of (Datta and Dasgupta), 147.

Calotes nemoricola, Jerdon, agamid garden lizard, influence of thermal acclimation of oxygen consumption in the, with reference to size, sex, temperature, season and climatic conditions (Rao and Rajabai), 1.

Compositae, embryological studies in, IV (Sundara Rajan), 267.

Crotalaria retusa L., shoot apex in, structure and organisation of the (Kannabiran), 91.

Cycas beddomei Dyer (Rao), 59.

Cyperaceae, studies in, XI (Govindarajalu), 160.

Hamamelidaceae, various taxa of, typology of foliar sclereids in (Rao and Bhupal), 127.

Hemigraphis and *Strobilanthes*, some species of, cuticular studies in (Ahmad), 29.

Japanese mint, studies on the efficacy of some herbicides on the control of weeds in (Misra and others), 110.

Macrophthalmus depressus Rüppell and *M. travancorensis* Pillai (Crustacea: Brachyura) the early development of (Rajabai), 41.

Martesia striata (Linn.), the wood-boring pholad in the Cochin harbour region on the south-west coast of India, observations on the growth rate in (Cheriyan and Cherian), 16.

Phegopteris, *Pseudophegopteris* and *Macrothelypteris*, genera, observations on the (Chandra), 68.

Philosamia ricini, variation in lipase activity in, during embryogenesis and larval-pupal-adult development (Radha Pant and Nautiyal), 230.

Rauvolfia serpentina Benth, high alkaloid yielding mutant in (Parimoo), 251.

Sewage, raw, physico-chemical and biological characteristics of, effect of *Anacystis nidulans* on the (Saxena and others), 139.

Sitana ponticeriana, ground lizard, and the garden lizard, *Calotes nemoricola*, time course of laboratory acclimation in the (Rao and Rajabai), 96.

Spiders, jumping, of the genus *Marpissa* from India (Family—Salticidae), studies on some (Tikader), 204.

Spiders, jumping, of the genus *Phidippus* from India (Family—Salticidae), studies on some (Tikader), 120.

Teleosts, some, from Portonovo waters, a karyotype study of (Natarajan and Subrahmanyam), 173.

Western continental shelf of India, holocene sea-levels on the (Nair), 197.

Chiasma frequency in homozygotes and heterozygotes of pearl millet 105
Chilli
Developmental studies on leaf of

brinjal (*Solanum melongena* L.) and chilli (*Capsicum annuum* L.) 197

Chrysanthemum stunt virus
Influence on RNA and nucleotides of *Chrysanthemum* leaves 97
Effect of chemicals on flowering of *Chrysanthemum* stunt virus-infected plants 267

Colletotrichum capsici
Effect of infection by *Colletotrichum capsici* and toxin treatment on the permeability changes of turmeric leaves 222

Congeria sallei Recluz
Studies on respiration in relation to body size and oxygen tension in the pelecypod *Congeria sallei* Recluz 163

Copepod parasite
Studies on crustacean parasites of freshwater fishes of Mysore. Part I. Morphology of a new copepod parasite *Lernaea hesaragattensis* sp. nov. on *Lebistes reticulatus* (Peters) 139

Crustacean parasites
Studies on crustacean parasites of freshwater fishes of Mysore 139

Cyperaceae
Studies in Cyperaceae. XII. Novelties in *Fimbristylis* (L.) Vahl 41

Dactyliandra welwitschii hook. F., embryology and seed development of 207

Egg-parasite
Studies on *Trichogramma semblidis* (Auriv.), egg-parasite of *Tabanus macer* Bigot in India 229

Ensete superbum (Roxb.) Cheesm., the floral anatomy of 253

Farmeria indica Willis (Podostemaceae), additional notes on 226

Fimbristylis (L.) Vahl
Studies in Cyperaceae. XII. Novelties in *Fimbristylis* (L.) Vahl 41

Gudusia chapra (Ham.), morphometric characters and their relationship in 51

Heteropneustes fossilis
Effect of salinity acclimation on the succinic dehydrogenase activity in a freshwater fish, *Heteropneustes fossilis* (Teleostei: Siluroidea) 26

Hyphomycetes on litter from India—I 216

Insects, aquatic
Aquatic insects caught at light in Madurai area (S. India) 281

Lentibulariaceae, embryological studies in 18

Livistona chinensis R. Br.
Studies on palms: Embryology of *Livistona chinensis* R. Br. 1

Memecylon L.
The utility of sclereid typology in solving problems of synonymy in a few taxa of the genus *Memecylon* L. 291

Mycobacterium tuberculosis H37Rv
Studies on an enzyme reacting with isoniazid from *Mycobacterium tuberculosis* H37Rv 240

N-substituted 3- and 4-nitrophthalimides, antibacterial activity of 68

Oaks
Epidermal studies in some Himalayan species of oaks and their taxonomic significance 188

Palms
Studies on palms: Embryology of *Livistona chinensis* R. Br. 1

Pearl millet
Chiasma frequency in homozygotes and heterozygotes of pearl millet 105

Pezizales of India 275

Philosamia ricini
Changes in protein, glycogen, free sugar content and active phosphorylase activity during embryogenesis of *Philosamia ricini* 121

Pyricularia, the toxins of 31

Rauvolfia serpentina Benth
Induced tetraploidy in geographical races of *Rauvolfia serpentina* Benth 92

Rhizobium, extracellular polysaccharides of 76

Saccharum
Vegetative and reproductive shoot apex and root apex in some *Saccharum* species 172

Scirpus (Cyperaceae), cytological studies in 134

Sclereid typology
The utility of sclereid typology in solving problems of synonymy in a few taxa of the genus *Memecylon* L. 291

Setaria italica Beauv.
Some observations on the histochemical constitution of style, stimga, pollen and pollen tube of *Setaria italica* Beauv.—*in vivo* study 127

Solanum melongena L.
Developmental studies on leaf of brinjal (*Solanum melongena* L.) and chilli (*Capsicum annuum* L.) 197

Spiders
Some spiders of the genus *Xysticus* (Family: Thomisidae) from Darjeeling, India 262

Tabanus macer Bigot
Studies on *Trichogramma semblidis* (Auriv.) egg-parasite of *Tabanus macer* Bigot in India 229

Tarasacum Weber, cytological studies in 82

Tea clones, taxonomy of 178

Tetraploidy
Induced tetraploidy in geographical races of *Rauvolfia serpentina* Benth 92

Trichogramma semblidis (Auriv.)
Studies on *Trichogramma semblidis* (Auriv.) egg-parasite of *Tabanus macer* Bigot in India 229

Turmeric leaves
Effect of infection by *Colletotrichum capsici* and toxin treatment on the permeability changes of turmeric leaves 222

Ulva fasciata
